

IT'S NOT JUST COVID!

Report outbreaks (and suspect outbreaks) of COVID-19 and other infectious diseases in your childcare center to your local health department immediately

An outbreak may be occurring when:

- Several children with similar symptoms are in the same group
- There is an increase in absences with reports of similar symptoms
- 2 or more children are diagnosed with the same reportable disease
- A single case of a highly infectious disease exists or is suspected to exist
